

BOBUX

Soft Sole Global Catalogue 2025

The genius of a Bobux soft sole is in its simplicity, its softness and its familiarity.

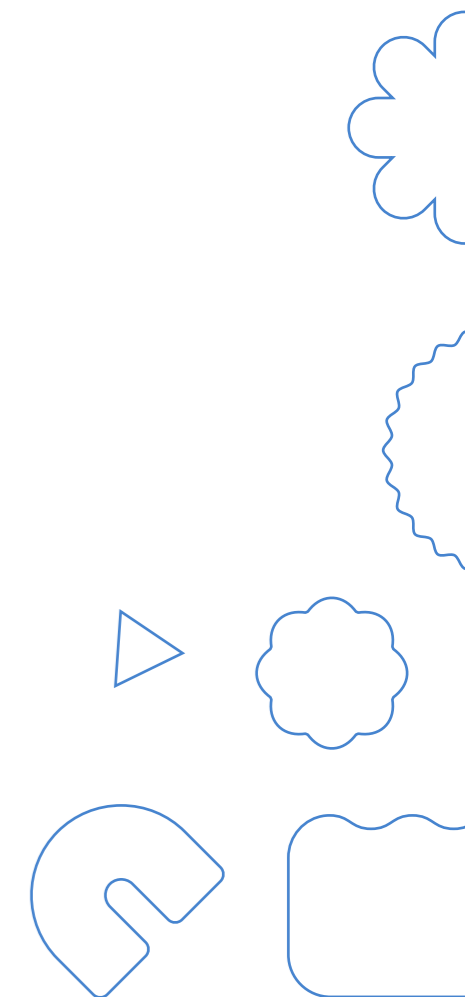

Our famous Bobux Soft soles are all about engaging with babies themselves, creating a shoe that makes them smile and fills them with joy. It's this concept that drives our unique designs that unlike other brands, face the baby - because it is about the kids right? And how they perceive their world, starting right from the day they are born.

The Soft Soles collections are always filled with familiar characters, shapes and objects that have a softness to them - in both the design, but also in their function. There are never any sharp edges, buckles, metal fittings. Just like a second skin - and as adorable as the babies who wear them.

Bubbles

Bo-Craft

1. Appliqué characters designed to face child.
2. Premium leather for breathability.
3. Non-slip sole, scuff resistant and soft on babies' skin.
4. Elastic collar for an easy, secure fit.

Balancing jauntily on his ball, Bubbles the monkey is a playful friend that babies will love. Keeping the consistency of the simple Soft Sole design, these baby shoes are crafted from premium leather for breathability and plenty of flex. Finished with a grippy suede sole and cute character design, Bubbles will delight babies who are exploring their world through movement and touch.

2. Premium leather for breathability.
3. Shaped like babies' feet for an anatomically correct fit.
4. Elastic collar for an easy, secure fit.

Gruff might look tough with a jagged spine and wild eyes - but like all our Bo-Buddies, Gruff's a big softie. Monstrous features are accentuated with 3D appliques, while premium leather and suede ensure baby's feet are comforted and protected. Fits easily with an elasticated collar, and ensures safe grip indoors with a non-slip sole.

Materials

We research and test all our textiles to find the best solutions that best meet the needs of kids at each stage of development. We have worked for years with our factories to ensure we have the best quality, most beautiful leathers available for our Soft Soles. The upper 'crust' of the leather is naturally soft, supple and breathable, whilst providing durability and protection from outside elements.

For more information on our materials + manufacturing, check out our website [here](#)

Soles

As babies learn to use their feet, the tiny nerves on the bottom of their soles take in sensory information in a process called proprioception - the more little feet can feel the ground beneath them, the better they learn how to walk, run and jump. We're firm believers in going barefoot, but sometimes those delicate feet need an element of protection.

That's why all styles in the Soft Sole collection have a 100% suede sole. Suede is supple, flexible and thin without compromising durability. The result is comfortable, protected feet that are free to wiggle, grow and connect with the ground they're crawling or walking on.

Babies spend a lot of time on their backs and tummies building strength through every wriggle, kick and squirm, so our Bo-Buddies characters also sport their very own underbelly - from pastel confetti to daisies and stars - ready for the world to see.

Fitting

At Bobux, we use European sizing however for Soft Soles, we use universal sizing ranging. How this converts to other international sizing, and length of feet in millimetres is shown in the size chart [here](#).

Adjustability

All of our Soft Soles are designed based on the average width of children's feet, however, they all have different levels of adjustability and can therefore be adjusted more suited to wider, average or slimmer feet. For each style throughout our catalogue, you will find an adjustability scale like the one below.

Tap on each number for a description of that rating.

Materials + care

Next to each style, you will find a material name. This is to indicate the care instructions that should be applied to the corresponding style. In some cases where multiple materials have been used the primary material care instruction has been provided.

Tap on each material for care instructions.
